Abstract of JP4134567

PURPOSE: To secure a memo area by designating the partial area of a picture on a storage medium as the memo area and saving the information of a source picture in the area.

CONSTITUTION: When the partial area of the picture on the storage medium is set as the memo area by a memo area setting means 4, the source information in this area is saved by an information saving means 9 and managed as a saved picture file. Then, the data can be written in the memo area set as an area independent of the source picture. Thus, the memo area can be secured, and the memo of characters or the like can be freely written in the memo area or printed while ignoring the memo area.
